

GODZILA PTE LTD/ Singapore

B SMT Magazine Buffer Stocker OK/NG with T design

- i Strong , firm and stable Modular design .
- ii Microcomputer touch screen Panasonic, Japanese Mitsubishi PLC control system
- iii Abnormalities are equipped with automatic fault diagnosis, sound, and tri-color light alarm functions.
- iv Automatic PCB feeder replacement, and the pitch of the lifting platform can be set according to the board thickness to 10, 20, 30,40 mm
- vi PCB transport direction: Right → Left or Left → Right.
- vii Apply after the 3D AOI inspection in Dual lane SMT line

SPECIFICATION

Sizes	M
Model	GH-250MULDOK/NG-DL
Ext. Dimension (mm)	1250x1380x1450
PCB Min. size (mm)	50 x 50
PCB Max. size (mm)	350x250
Mag. Rack Dim.(mm)	355x320x563
Control System	Industril Module Card system (PLC option)
Communication	SMEMA for bothin & out
Compressed air	0.4 ~0.6 Mpa
Power Supply	Single phase AC 220V with 50/60Hz
Weight (Standard) kg	Apprpx.380
