

GODZILA PTE LTD/ Singapore

A SMT Link Conveyor

- i Modular design with rugged steel structure to improve equipment stability.
- ii Smooth stainless steel screw to adjust the width of rail .
- iii This NG conveyor allow good and bad board separated in after AOI after inspection, the good board can continue to flow off without interrupting.
- iv Rugged steel structure design and improve equipment stability
- vi Heavier bottom structure design prevent equipment shift
- vii Touch Screen and Compatible with SMEMA interface for input and output side
- viii Option : Dual rail

SPECIFICATION

Sizes	M	L	LL	XL
Model	GH250BCNG/OK-10	GH330BCNG/OK-10	GH390BCNG/OK-10	GH460BCNG/OK-10
Ext. Dimension (mm)	50 to 250mm (or Max 460 mm-XL)			
PCB Width	Left to Right or Right to Left			
PCB Direction	Adjustable			
Speed	Industril Module Card system (PLC option)			
Control System	ESD Rubber Mat			
Platform Material	SMEMA for bothin & out			
Communication	Single phase AC 220V with 50/60Hz			
Power Supply	105	125	135	145
Weight (Standard) kg
